## CAREER PROFILE

Computer Engineering graduate with hands-on experience in full-stack development, REST APIs, and databases through real-world projects and internships. Seeking Software Developer / Backend / Full-Stack roles to build scalable applications.

## EDUCATION

Bachelor of Technology – Computer Engineering	Jun 2025
Silver Oak University, Ahmedabad - Gujarat	CGPA: 9.45 /10.0
Courses: Web Technologies, Core JAVA, Core Python, OOPS, Data Structures, Analysis and Designing of Algorithms, DBMS	
High School Certificate (Mathematics, Physics and Chemistry)	Jun 2021
Hebron, Gujarat Education Board - Gujarat	Percentage: 74.76%

## TECHNICAL SKILLS

Languages	JavaScript, Python, C, Java
Web Development	React.js, Node.js, Express.js, HTML5, CSS3, Bootstrap, RESTful APIs
Databases	MongoDB, MySQL, PostgreSQL
Frameworks/ Tools	Git, GitHub, Visual Studio Code, Postman, Google Cloud
Concepts	Authentication & Authorization, CRUD operations, API integration, Responsive Web Design

## WORK EXPERIENCE

ZenDevX Solutions Pvt. Ltd. (Software Developer Intern)	Sep 2023 – Mar 2025
<ul style="list-style-type: none"><li>Designed and implemented core business logic for internal products, including inventory management, inward/outward material flow, sales and purchase modules, and GRN processing.</li><li>Improved application stability by about 25% through bug reductions in modules and making the UI more responsive, impacting over 200 internal users.</li><li>Delivered more than 10 feature updates in iterations; all were completed on time due to good coordination with different teams and taking stakeholder feedback into consideration.</li><li>Developed ERP-style workflows covering sales reports, purchase reports, and data validation rules used by business teams.</li></ul>	

## ACADEMIC PROJECTS

Quick-Commerce Web App (React.js, Node.js, Express.js, MongoDB, JWT)	Jan – Mar, 2025
<ul style="list-style-type: none"><li>I built a quick-commerce web app like Blinkit, which included over 500 product listings and over 5 user flows: login, search, cart, checkout, and admin dashboard.</li><li>I added JWT login and password reset. Testing showed that this reduced unauthorized access attempts by about 100%. Also, created a responsive interface and tested it on 3 device sizes.</li><li>REST APIs were designed by me for users and products, in order to handle CRUD operations using MongoDB Atlas with over 500 test records stored.</li></ul>	

Portfolio (Next.js, TypeScript, Tailwind CSS, React)	June, 2025
<ul style="list-style-type: none"><li>Modern portfolio built with Next.js featuring dark mode, smooth animations, and responsive design to showcase more projects and skills I am learning and applying.</li></ul>	

## CERTIFICATES AND COURSES

Using MongoDB with Node.js	MongoDB University
<ul style="list-style-type: none"><li>Completed a hands-on training course covering connection setup, CRUD operations, aggregation pipelines, transactions, and performance best practices using the MongoDB Node.js driver.</li></ul>	

Code in Place	Stanford University
<ul style="list-style-type: none"><li>Studied Python fundamentals and introductory problem solving in an instructor-led program based on Stanford's CS106A.</li></ul>	

Google Cloud Skill Badges (Public Profile)	Google Skills
<ul style="list-style-type: none"><li>Hands-on Google Cloud skill badges covering Generative AI, Kubernetes, Cloud Security, and AI services.</li></ul>
