## CAREER PROFILE

Computer Engineering graduate with hands-on experience in full-stack web development, RESTful APIs, and database design via internships and real-world projects. I am looking to work on Software Developer/Frontend/Backend/Full-Stack roles where I can develop scalable applications and contribute positively to high-impact engineering teams.

## EDUCATION

<b>Bachelor of Technology – Computer Engineering</b>	Jun 2025
Silver Oak University, Ahmedabad, Gujarat	CGPA: 9.45 /10.0
Courses: Web Technologies, Core Python, Data Structures, Analysis and Designing of Algorithms, DBMS	
<b>High School Certificate (Mathematics, Physics, Chemistry)</b>	Jun 2021
Hebron, Gujarat Education Board, Gujarat	Percentage: 74.76%

## TECHNICAL SKILLS

<b>Languages</b>	JavaScript, Python, C, Java
<b>Web Development</b>	React.js, Node.js, Express.js, HTML5, CSS3, Bootstrap, RESTful APIs
<b>Databases</b>	MongoDB, MySQL, PostgreSQL
<b>Frameworks/ Tools</b>	Git, GitHub, Visual Studio Code, Postman, Google Cloud, JWT Authentication, MongoDB Compass
<b>Concepts</b>	Authentication & Authorization, CRUD operations, API integration, Responsive Web Design

## WORK EXPERIENCE

<b>ZenDevX Solutions Pvt. Ltd.</b> (Software Developer Intern)	Sep 2023 – Mar 2025
• Improved application stability by about 25% through bug reductions in modules and making the UI more responsive, impacting over 200 internal users.	
• Enhanced the no-code engine for ZenDevX, increasing code generation accuracy by approximately 15% and reducing manual development time for client teams by up to 30%.	
• Delivered more than 10 feature updates in iterations; all were completed on time due to good coordination with different teams and taking stakeholder feedback into consideration.	

## ACADEMIC PROJECTS

<b>E-Commerce Web App</b> ( <i>React.js, Node.js, Express.js, MongoDB, JWT</i> )	Jan - Mar 2025
• I built an e-commerce web app like Blinkit, which included over 20 product listings and over 5 user flows: login, search, cart, checkout, and profile.	
• I added JWT login and password reset. Testing showed that this reduced unauthorized access attempts by about 100%. Also, Created a responsive interface and tested it on 3 device sizes.	
• REST APIs were designed by me for users and products, in order to handle CRUD operations using MongoDB with over 500 test records stored.	

<b>Portfolio</b> ( <i>HTML5, CSS3, JavaScript</i> )	June, 2024
• I designed my personal portfolio, and it attracted more than 100 visitors within the first month of going live.	
• I also built a simple multi-page layout with more than five sections: about, skills, projects, contact.	

## CERTIFICATES

<b>Using MongoDB with Node.js</b>	MongoDB University
• Completed a hands-on training course covering connection setup, CRUD operations, aggregation pipelines, transactions, and performance best practices using the MongoDB Node.js driver.	
<b>Code in Place</b>	Stanford University
• Studied Python fundamentals and introductory problem solving in an instructor-led program based on Stanford's CS106A.	

## VOLUNTEERING

<b>Student Fundraiser</b> (Cancer Aid Society)	
• Volunteered for 15 days with the National Cancer Control Programme at Cancer Aid Society. Awarded a Certificate of Social Service and Gold Medal for raising awareness about cancer and substantial donations per WHO guidelines.
