CAREER PROFILE

Computer Engineering graduate with hands-on experience in full-stack web development, RESTful APIs, and database design via internships and real-world projects. I am looking to work on Software Developer/Frontend/Backend/Full-Stack roles where I can develop scalable applications and contribute positively to high-impact engineering teams.

EDUCATION

Bachelor of Technology – Computer Engineering   **Jun 2025**
Silver Oak University, Ahmedabad - Gujarat   **CGPA: 9.45 /10.0**
Courses: Web Technologies, Core Python, Data Structures, Analysis and Designing of Algorithms, DBMS

High School Certificate (Mathematics, Physics and Chemistry)   **Jun 2021**
Hebron, Gujarat Education Board - Gujarat   **Percentage: 74.76%**

TECHNICAL SKILLS

Languages	JavaScript, Python, C, Java
Web Development	React.js, Node.js, Express.js, HTML5, CSS3, Bootstrap, RESTful APIs
Databases	MongoDB, MySQL, PostgreSQL
Frameworks/ Tools	Git, GitHub, Visual Studio Code, Postman, Google Cloud, JWT Authentication, MongoDB Compass
Concepts	Authentication & Authorization, CRUD operations, API integration, Responsive Web Design

---

WORK EXPERIENCE

ZenDevX Solutions Pvt. Ltd. (Software Developer Intern)   **Sep 2023 – Mar 2025**
- Improved application stability by about 25% through bug reductions in modules and making the UI more responsive, impacting over 200 internal users.
- Enhanced the no-code engine for ZenDevX, increasing code generation accuracy by approximately 15% and reducing manual development time for client teams by up to 30%.
- Delivered more than 10 feature updates in iterations; all were completed on time due to good coordination with different teams and taking stakeholder feedback into consideration.

ACADEMIC PROJECTS

Quick-Commerce Web App (*React.js, Node.js, Express.js, MongoDB, JWT*)   **Jan - Mar 2025**
- I built a quick-commerce web app like Blinkit, which included over 500 product listings and over 5 user flows: login, search, cart, checkout, and admin dashboard.
- I added JWT login and password reset. Testing showed that this reduced unauthorized access attempts by about 100%. Also, created a responsive interface and tested it on 3 device sizes.
- REST APIs were designed by me for users and products, in order to handle CRUD operations using MongoDB Atlas with over 500 test records stored.

Portfolio (*Next.js, TypeScript, Tailwind CSS, React*)   **June, 2025**
- Modern portfolio built with Next.js featuring dark mode, smooth animations, and responsive design to showcase more projects and skills I am learning and applying.

CERTIFICATES

Using MongoDB with Node.js   **MongoDB University**
- Completed a hands-on training course covering connection setup, CRUD operations, aggregation pipelines, transactions, and performance best practices using the MongoDB Node.js driver.

Code in Place   **Stanford University**
- Studied Python fundamentals and introductory problem solving in an instructor-led program based on Stanford's CS106A.

VOLUNTEERING

Student Fundraiser (Cancer Aid Society)
- Volunteered for 15 days with the National Cancer Control Programme at Cancer Aid Society. Awarded a Certificate of Social Service and Gold Medal for raising awareness about cancer and substantial donations per WHO guidelines.
